#### First Term text - 2020

# **Mathematics**

Grade 09

2 hours

Name -: ...... Class -: .....

## Part I

Answer all the questions

- (01) Find the next two terms of the given number patten.  $10, 5, 0, \dots$
- (02) A discount of 5% is offered when an item is purchased with marked price Rs 500. find the selling price of the television set.
- (03) Simplify  $\frac{1}{8} + \frac{1}{4}$

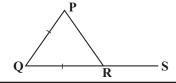

(04) find the value of 'y'  $\frac{y}{48^{\circ}}$ 

- (05) The general term of a number, pattern is 3n 1 find the 21<sup>st</sup> term.
- (06) Convert  $1110_{\text{two}}$  binary number in to decimal number.
- (07) Find the value of  $\frac{1}{2}$  of  $1\frac{1}{2}$  kg.
- (08) If m=-1,  $n=\frac{1}{2}$  find the value of 2mn.

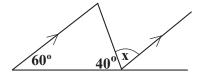

(09) Remove the bracket and simplify.

$$(2x - 1)(5 - x)$$

- (10) Find the factors of  $25a^2 1$ .
- (11) In the PQRS triangle PQ = QR, QR side extended to S Show that PQ + RS = QS.

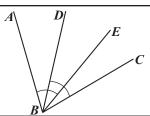

- (12) Simplify 5x 1 = 4
- (13) Add  $1101_{two} + 111_{two}$
- (14) A vender buys an item for Rs 900 and sells it for Rs 1050.
  - a) Determine the profit
  - b) Find the percentage of the profit.
- (15) Find the value using factors knowledge 99<sup>2</sup>-1
- (16) Find the value of x using the given data.

(17) Simplify

$$\left(\frac{1}{4} \text{ of } \left(2 \frac{2}{3} \div 1 \frac{1}{7}\right)\right)$$

- (18) If  $\frac{1}{5}$  of some amount of money is equal to Rs 750 How much is the whole amount?
- (19) If  $\overrightarrow{ABE} = \overrightarrow{DBC}$ Show that  $\overrightarrow{ABD} = \overrightarrow{EBC}$  with knowledge of axioms

(20) Find the general term of the given number pattern 8, 6, 4, ......

### Part II

### Answer 6 questions only

- (01) A student opened the savings account by depositing Rs 100, in month of January. then after each every month he deposited Rs 50 for this saving account.
  - (i) Write the amount of money for the four months respectively.

(Marks 02)

(ii) Write the first term and the difference according to the above number pattern

(Marks 02)

 $(iii) \ \ Write the general term of the (Tn) above number pattern.$ 

(Marks 03)

(iv) Find the amount of money in the savings account in the month of december.

(Marks 03)

- (02) The length of a rectangular shaped flower bed is twice its breadth and more than 1 m.
  - a) (i) Draw a rough sketch of the flower bed and mention it's length and breadth.

(Marks 02)

- (ii) Write the expression for its area and simplify it.
- (b) Find the factors

(Marks 03)

(i)  $x^2 - 11x + 30$ .

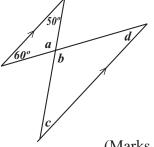

(I)  $25x^2 - 9$ .

(Marks 03)

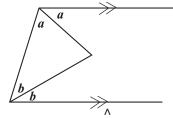

(Marks 02)

(03)

(i)

(ii)

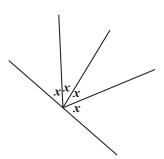

(Marks 04)

Find the value of a,b,c,d

Find the value of AEC

(Marks 04)

(iii)

Find the value of X

(Marks 02)

(04) A man spent $\frac{1}{2}$ of his salary for food and	$\frac{1}{5}$ for rented house fee from his salary.
---	---

- (i) What Fraction he spent for both food and rental fee rented house fee from his whole salary. (Marks 02)
- (ii) From the rest of the above expenditures he spent  $\frac{1}{3}$  for childrens' education (Marks 03) Write it as a fraction out of the total salary.
- (iii) After spending for all the above items the other remaining portion is deposited in the (Marks 02) bank. write it as a fraction from whole amount.
- (iv) If the above fraction is equal to Rs 8000 find his whole salary. (Marks 03)
- (05) A Jewellary maker spent Rs 40,000 to make a bangle set. He marks its selling price with a profit of 20% when selling the bangle set. If the payment is done with an outright a discount of 10% is ofered to the customer.
  - (i) Find the marked price of the bangle set.
  - (ii) Find the price of the bangle set when that discount is given.

(Marks 02)

(iii) Find the profit percentage he got.

(Marks 03)

(Marks 02)

(b) A person paid a commission of 3% when he purchased a house. If he paid Rs 59000 as a commission, find the amount he paid for the house.

(Marks 06)

(06)

(Marks 03)

(i) Write as a decimal number for 1101 two (Marks 03)

(ii) Write as a binary number for 35 two

(iii) Add  $11011_{two} + 111_{two}$  (Marks 06)

(iv) Subtract  $11011_{two} + 101_{two}$  (Marks 06)
