Being innovative, changing with right knowledge  
Be a light to the country as well as to the world.

**Message from the Hon. Minister of Education**

The past two decades have been significant in the world history due to changes that took place in technology. The present students face a lot of new challenges along with the rapid development of Information Technology, communication and other related fields. The manner of career opportunities are liable to change specifically in the near future. In such an environment, with a new technological and intellectual society, thousands of innovative career opportunities would be created. To win those challenges, it is the responsibility of the Sri Lankan Government and myself, as the Minister of Education, to empower you all.

This book is a product of free education. Your aim must be to use this book properly and acquire the necessary knowledge out of it. The government in turn is able to provide free textbooks to you, as a result of the commitment and labour of your parents and elders.

Since we have understood that the education is crucial in deciding the future of a country, the government has taken steps to change curriculum to suit the rapid changes of the technological world. Hence, you have to dedicate yourselves to become productive citizens. I believe that the knowledge this book provides will suffice your aim.

It is your duty to give a proper value to the money spent by the government on your education. Also you should understand that education determines your future. Make sure that you reach the optimum social stratum through education.

I congratulate you to enjoy the benefits of free education and bloom as an honoured citizen who takes the name of Sri Lanka to the world.

**Akila Viraj Kariyawasam**  
**Minister of Education**

## Foreword

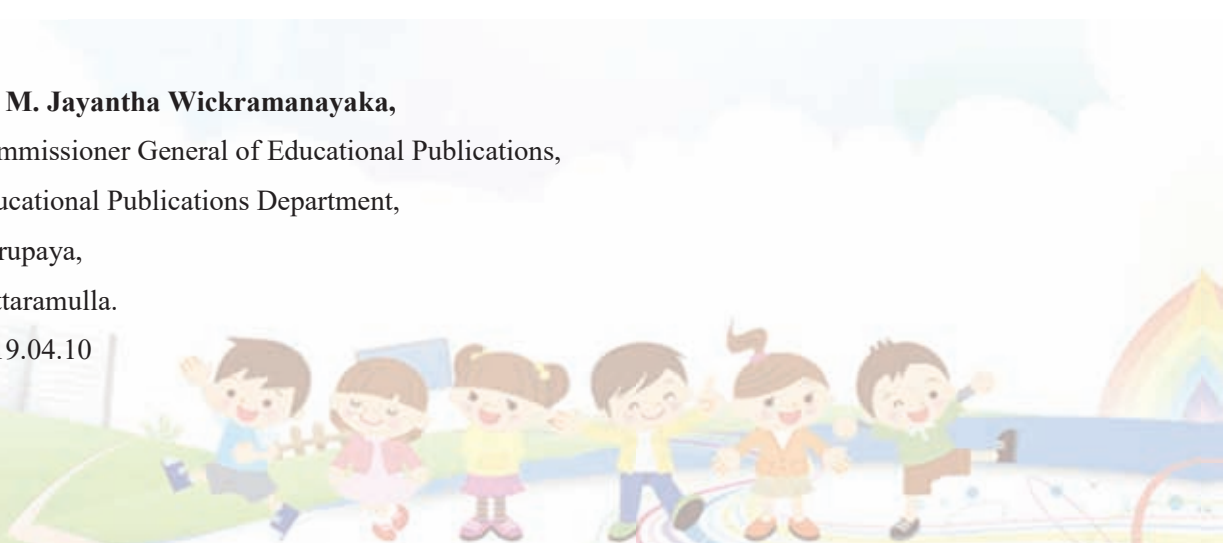

The world is modernized day by day. It is transformed every second. It is the education, which guides you to understand this phenomenon, preserve the good and confront the challenges of the changing world with strength. It is our objective to provide you with competencies required for you to work collaboratively with others, to adapt to the environment and the world of work, to spend the free time enjoyably and to become a citizen with a balanced personality.

The Educational Publications Department is dedicated to produce learning tools that would assist you to become a person with a balanced personality who would be able to develop positive relationships with national and international community.

By now, we have offered you about 25 types of textbooks from grades 1-4 under the new curriculum implemented from 2016. I would like to remind you that you should make the maximum use of these textbooks and protect them well. I wish you all the best to enter the future world with pride by developing your skills and potentials through the use of this new textbook that is introduced for 2020.

I would like to bestow my sincere thanks on the members of the editorial and writer boards as well as on the staff of the Educational Publications Department who have strived to offer this textbook to you.
